### DETAILED ACTION

Restriction is required under 35 U.S.C. 121 and 372.

1. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Group I. Claims 1-3, drawn to a nucleic acid, vector and host cell.

Group II. Claim 4, drawn to a method of identifying an individual at risk by sequencing a segment of a promoter sequence.

Group III. Claims 5-7, drawn to a method of identifying an individual at risk by measuring the level of transcriptional activity.

Group IV. Claim 8, drawn to a method of identifying a compound that is useful in treating by contacting a CD40L promoter sequence.

Group V. Claim 9, drawn to a method of identifying a compound that is useful in treating by contacting a reconstituted system.

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The invention of Group I was found to have no special technical feature that defined the contribution over the prior art of Schubert et al., J. Biol. Chem 270: 29624-29627, 1995 as set forth in PCT 210 Search Report and indicated on the IDS, filed 3/13/02. Schubert et al. teaches the claimed nucleic acid, vector and host cell.

3. Accordingly, Groups I-VI are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
